It has limestone walls, exposed wood beams, a concrete floor, subdued overhead lighting, and a small slightly raised stage. The structure is not temperature controlled and is not rated as handicapped accessible, although it is on the ground level. Two of its three doors must remain open to meet fire safety regulations. The farmyard area surrounding the historic barn has picnic tables, a fire pit, trash receptacles, and pit toilets. The space is great for open air events during the fair-weather months. Many people enjoy holding their wedding ceremonies or small group activities in this special historic space.
